NASA's Eyes on the Earth

BINGO!

The search is on! Spice up your next trip on the road by searching for things that are good for the environment or that can help to reduce global warming.

Eco-tip: Put your cards into a clear plastic sleeve and mark it with a dry-erase marker. That way you can use the cards over and over again without using too much paper!

Directions:

1. Take your bingo cards with you the next time you hop in a car or get on a bus.
2. Everyone playing needs his or her own card. You need at least 2 people.
3. Whenever you spot something that is on your card, mark that square.
4. The middle square is a freebie.
5. When you get 5 in a row (across, up-and-down, or diagonal), yell "bingo!"
6. The first person to yell "bingo!" wins the game.
7. Visit <http://climatekids.nasa.gov/bingo> to learn more about what's on your card!
